Govt. of Gujarat has initiated Joint Forest Management (JFM) programme in the State in the year 1991 for the rehabilitation of degraded forests. This new concept was initially introduced in Bharuch, Surat, Vadodara and Panchmahal districts and thereafter it has been extended to Sabarkantha, Valsad, Banaskantha and Gandhinagar district. Govt. of Gujarat F& E Deptt. GR JFM/1005-191-G Dt.17-12-2005 , the JFM activities are extended even on good forest area i.e above 0.4 density area with a specific condition of net profit showing between Government and JFM @ 80:20 ratio in place of 50 : 50 as it specified for areas below 0.4 density.

With the JFM approach, has resulted in improved in tree cover in many forest areas. This has been further confirmed through the studies carried out by the GEER Foundation on the basis of satellite imaginaries and ground trusting in 10 villages in Sabarkantha Forest Division and two villages in Vyara Forest Division.

To support the JFM villages, the much needed development works are carried out by availing funds from other sources. These activities are popularly known as Entry Point Programme / Activities.

There has been significant progress in the field of JFM in recent times with total No. of 2781 JFMC have been formed, out of which 1240 have been registered. The progress of Joint Forest Management in Gujarat State is shown in statement 9.

## CHAPTER - VI

### SOCIAL FORESTRY

Gujarat is a forest poor state. Approximately 10% geographical area of the state is legally designated as forests. The forests are irregularly distributed and confined mainly to the eastern and southern districts of the state. The situation is aggravated by absence of tree cover from about half of the area. On the other hand, the climate and rainfall of state are quite varied, Agro-climatically the state is divided in to 8 agro-climatic zones. The rains are undependable and droughts are quite common (about 35% of the area is chronically affected) Fodder becomes scare during drought years and the state has to transport large quantities of fodder from far-off places to save the cattle from starvation. Promotion of tree planting on non-forest lands has been considered to be the only answer to improve the situation in the state. The Gujarat Forest Department, therefore, put forth a Social Forestry Programme for planting trees on all types of vacant lands. Under this programme, tree planting is carried out on the following categories of lands : (A) GOVERNMENT LAND :1. Strip lands (along roadside, railway side and canal banks) 2. Government wastelands. 3. Degraded forest lands. 4. vacant lands belonging to other Govt. Depts. (B) SEMI-GOVERNMENT LAND: 1. Gaucher lands (Village Panchayat grazing lands) 2. Corporation land and belonging to other Semi-Govt.Institute (C) PRIVATE LAND : 1. Private land of individuals 2. Degraded farm lands.

During the year 2007-08 the following achievements have been made under the programme of Social Forestry

#### 1. Avenue Plantation SF-I

Avenue Plantation are created on the lands along roadside ,railway lines and canal- banks These plantations improve the aesthetic beauty of the area, act as shelterbelts and will also add to the production of fuelwood and timber which is sought daily by the poorer section of the society.

Looking to the climatic conditions prevailing in the State, two treatment models one for Saurashtra/Kachachh and other similar area of the State and other for rest of the Gujarat are implemented. During the year 221 ha. land covered under this model.

#### 2. Avenue Plantation SF-II

Besides the areas of Saurashtra and Kachchh region, part of Banaskantha, Mehsana, Ahmedabad, Kheda and Bharuch districts are also included under this model. These areas are refractory with shallow and saline soils due to proximity of desert or sea coast. In order to ensure better success, the first row is planted with seedlings of species like Vad, Pipal, Limda etc. and second row is planted with Baval and other locally suitable species. During the year 141 ha. land covered under this model.

#### 3. Strip plantation SF-III
